TOOL BELT COMBOS

Boulder Bag

BUILT ROCK SOLID 

TOOL BELT COMBOS

Boulder Bag products are simply the best made tool carrying products in America. They are incredibly strong, so they can take whatever punishment comes their way, yet they are lightweight and padded, so they don't take it out on you.

The founders of Boulder Bag have been manufacturing products made from Dupont Cordura® Nylon since 1987, making them one of the oldest nylon tool pouch manufacturers in the USA.

FEATURES

- Original one-piece boxed bottom design.
- Double layered 1000 denier Dupont Cordura® Plus Nylon.
- Long Lasting Velcro® Brand Velcro.
- Thick nylon webbing to strengthen pockets and hold them open.
- Double locking rivets.
- High density, long lasting, closed cell foam to keep an outfit full of tools from rubbing you the wrong way. It won't flatten with use.
- Interchangeable bags, pouches and accessories. You can customize!
- **MADE IN THE USA.**

Drill Pouch Selection:

If you carry your drill on your hip, select the 440 Right Handed Drill Pouch if you are right handed or the 440-L if you are left handed.

If you prefer to carry your drill at the middle of your back, you may find it more comfortable to use the 440-L Left Handed Drill Pouch if you are right handed and the 440 Right Hand Drill Pouch if you are left handed.
